#### Water Fountains.

From the Rowland Hi Echoes.

Writing of the gymnasium which we expect to have soon reminds us of something else which we need very much in our school. This is water fountains. We have one fountain but it is in the building. When the children get out at recess they don't want to waste enough time to run into the house for a drink but would rather play. So they do without water which they need in order to be healthy. All health authorities agree that it is impossible to drink too much water and if we had two fountains out on the grounds much more water would be drunk. It would not cost much to install two water fountains and the improved health of the students would more than repay it.

A Stockholm physician is reported to have discovered the microbe of sleeping sickness and to have established the fact that the disease is infectious. Rabbits were inoculated with brain substance from persons who had died of the disease.

#### ROWLAND DEFEATS CLIO.

##### Hard Fought Game.

From the Rowland Hi Echoes.  
Rowland High School's baseball team defeated Clio's team Friday afternoon by a close score of 5 to 4. The features of the game were the pitching of Smith for Clio, who pitched a good game and the doggedness of his backers in his support. Rowland's young pitcher, "Skeet" Bond, surprised all. This ten inning game was the first he ever pitched for the school, and by allowing only two hits and pitching a good game he won for himself a job as a pitcher. The hitting of Pittman and McGregor in the exciting moments of the game were sensational. May this good work continue.

## Some FACTS About FORDS

THE UNIVERSAL CAR

Here are authentic figures from the Ford factory at Detroit. They show just how many Ford cars and trucks have been built each month since January 1, 1921 and how many have been sold to retail customers, in the United States.

	Produced	Delivered to Retail Customers
JANUARY	29,883	57,208
FEBRUARY	35,305	63,603
MARCH	61,886	87,221
Total Production	127,074	Total Retail Sales 208,032

showing that actual sales for the first three months of 1921 exceeded production by 80,958 Ford cars and trucks!

April requisitions already specify 107,719 additional cars and trucks and the estimated April output of the factory and assembly plants combined calls for only 90,000!

These facts clearly show that the demand for Ford products is growing much faster than manufacturing facilities to produce and were it not for the dealers' limited stocks, which are now being rapidly depleted, many more customers would have been compelled to wait for their cars. It will be only a matter of weeks, therefore, until a big surplus of orders will prevent anything like prompt deliveries.

If you would be sure of having your Ford car or truck when you want it, you should place your order now. Don't delay. Phone us or drop us a card.
